*Anthobaphes violacea*

CONSCIOUSNESS OF HOW WE INTERACT WITH NATURE HAS DEVELOPED IN THE  
 21ST CENTURY. UNESCO (THE UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND  
 CULTURAL ORGANIZATION) LAUNCHED THE MAN AND THE BIOSPHERE PROGRAMME IN  
 1971 TO PROMOTE INTERDISCIPLINARY APPROACHES TO MANAGEABLE USE OF NATURAL  
 RESOURCES. SOUTH AFRICA PARTICIPATES IN THIS INTERNATIONAL INITIATIVE.

THE SOUTH AFRICAN MINT INTRODUCES A NEW COLOUR-FINISH COIN RANGE IN 2016.  
 THIS SERIES INCLUDES TWO STERLING-SILVER R10 (10Z) CROWNS & TWO  
 STERLING-SILVER R5 (10Z) CROWNS DEPICTING, IN COLOUR, BIRDS AND FLOWERS OF  
 THE UNESCO KOEGLBERG BIOSPHERE RESERVE, REGISTERED IN IBBB AND SITUATED IN  
 THE WESTERN CAPE PROVINCE. IT IS CONSIDERED TO BE THE HEART OF THE CAPE  
 FLORAL REGION.

MAN AND THE BIOSPHERE  
 KOEGLBERG BIOSPHERE RESERVE

**CLIFF  
 GLADIOLUS**

*Gladiolus carmineus*

**R5**

**This R5 crown features the Hermanus cliff gladiolus (*Gladiolus carmineus*) of the family Iridaceae, which is endemic to the Western Cape. It is described as 'vulnerable' in SANBI's Red list of South African plants.**

This unique plant carries up to six deep-pink unscented flowers, with only one flower opening at a time, as depicted on the coin. In the background, its habitat of rocky sandstone outcrops and cliffs situated close to the coastline is featured. The scientific name, the denomination 'R5', and the metal value '1oz Ag925 Cu75' are also shown.

The obverse features a map of South Africa indicating the location of the Kogelberg Biosphere Reserve in the Western Cape Province. An enlarged map shows the actual reserve, which covers land and sea, the words 'South Africa', and the year '2016'.
